

Project Title: Capacity Building through Knowledge Sharing - An Action Research Project on Developing Collaborative Knowledge Management Systems among Small NGOs in Hong Kong

Project Summary:

This 40-months research project collaborated among the APSS research team and five small non-government organizations in Hong Kong is an action research aiming at building up the capacities of the NGOs with respect to community-based poverty alleviation, inter-organizational collaboration and learning, and the use of information and communication technologies in social service management. The processes and factors identified and contributing to the success of this project definitely serve to provide valuable experiences and principles for future inter-organizational collaboration among the NGOs in Hong Kong and the global community.
